HEARING RESEARCH

Vol. 130, Nos. 1–2
April 1999

CONTENTS

Cited in: Biological Abstracts (BIOSIS); Chemical Abstracts; Current Contents/Life Sciences; Current Awareness in Biological Sciences (CABS); Excerpta Medica (EMBASE); Index Medicus; INSPEC; PASCAL M; Reference Update

Review Article

F.J. Probst and S.A. Camper (USA)
The role of mouse mutants in the identification of human hereditary hearing loss genes 1

Reseach Papers

S.S. Spicer, N. Smythe and B.A. Schulte (USA)
Distribution of canalicular reticulum in Deiters cells and pillar cells of gerbil cochlea 7

J.A. Winer, J.B. Kelly and D.T. Larue (USA, Canada)
Neural architecture of the rat medial geniculate body 19

J.A. Winer, S.L. Sally, D.T. Larue and J.B. Kelly (USA, Canada)
Origins of medial geniculate body projections to physiologically defined zones of rat primary auditory cortex 42

P. Coutinho, R. Goodyear, P.K. Legan and G.P. Richardson (UK)
Chick α-tectorin: molecular cloning and expression during embryogenesis 62

E.-M. Ostapoff, D.K. Morest and K. Parham (USA)
Spatial organization of the reciprocal connections between the cat dorsal and anteroventral cochlear nuclei 75

Q.Y. Zheng, K.R. Johnson and L.C. Erway (USA)
Assessment of hearing in 80 inbred strains of mice by ABR threshold analyses 94

D.J. Swartz and P.A. Santi (USA)
Immunolocalization of tenascin in the chinchilla inner ear 108

B.A. van Adel, S.A. Kidd and J.B. Kelly (Canada)
Contribution of the commissure of Probst to binaural evoked responses in the rat's inferior colliculus: interaural time differences 115

K. Nishizaki, T. Yoshino, Y. Orita, S. Nomiya and Y. Masuda (Japan)
TUNEL staining of inner ear structures may reflect autolysis, not apoptosis 131

E.V. Leonova and Y. Raphael (USA)
Application of a platinum replica method to the study of the cytoskeleton of isolated hair cells, supporting cells and whole mounts of the organ of Corti 137

W.M. Yamada and E.R. Lewis (USA)
Predicting the temporal responses of non-phase-locking bullfrog auditory units to complex acoustic waveforms 155

R.K. Shepherd and E. Javel (Australia, USA)
Electrical stimulation of the auditory nerve: II. Effect of stimulus waveshape on single fibre response properties 171

G. Scholz, A. Hirschfelder, T. Marquardt, J. Hensel and D. Mrowinski (Germany)
Low-frequency modulation of the $2f_1-f_2$ distortion product otoacoustic emissions in the human ear 189

Contents continued on inside back cover

CONTENTS DIRECT

This journal is part of **ContentsDirect**, the ***free*** alerting service which sends tables of contents by e-mail for Elsevier Science books and journals. The quickest way to register for **ContentsDirect** is via the World Wide Web at:
http://www.elsevier.nl/locate/ ContentsDirect.
If you don't have access to the WWW you can register for this service by sending an e-mail message to cdsubs@elsevier.co.uk specifying the title of the publication you wish to register for.
The tables of contents are also available on the Elsevier Science website at:
www.elsevier.nl or www.elsevier.com or www.elsevier.co.jp

0378-5955(199904)130:1/2;1-H

(Contents continued from back cover)

C.A. Miller, P.J. Abbas, B.K. Robinson, J.T. Rubinstein and A.J. Matsuoka (USA)
Electrically evoked single-fiber action potentials from cat: responses to monopolar, monophasic stimulation[1] 197

M.D. Waring, C.W. Ponton and M. Don (USA)
Activating separate ascending auditory pathways produces different human thalamic/cortical responses 219

Erratum
R. Patuzzi (Australia)
Erratum to: "A four-state kinetic model of the temporary threshold shift after loud sound based on inactivation of hair cell transduction channels". [Hear. Res. 125 (1998) 39–70] 231
